Move large volumes of material quickly and efficiently with this functional three-sided cart. 2 shelves with 32-1/4 inches of clearance between them provide plenty of space to carry large volumes of product of various sizes and shapes. . For product retention purposes, the shelves have been designed to sloped 3" from front to back to retain material during transport. When the job is done, and the cart is no longer needed, it folds to a depth of 6-1/2" and nests away for convenient, space saving storage.
