

**Security Cart: Five Shelf, Five Sided Cart—F-70**

- Distribution**
- Stocking**
- Work-In-Process**
- Display**

This security cart features 3 shelf positions rails which allows for easy shelf adjustments and a heavy mesh wire grid that protects items while they are being stored, transported or moved inside or outside your facility. A solid skin constructed right hand door allows items to be easily identified while still protected. The included document pocket with a hinged top and plexiglass window enables contents to be identified without having to be removed. Using a security cart in distribution, stocking and work-in-process applications ensures the secure storage of valuable items, protecting your products against shrinkage and theft. When the cart is not in use, it folds for easy and compact storage.
