

**Four Shelf, Two Sided Forkliftable Cart R-47**

- Distribution**
- Stocking**
- Work-In-Process**
- Display**

This low profile, pallet sized CannonCart accommodates large volumes of product. With four adjustable shelves (adjustable in 13 different positions) and a forkliftable base, place any product on the cart for high density storage in pallet racking systems or place on the sales floor for easy merchandising of endcaps or inline displays. The forkliftable design ensures easy transportation on trucks, eliminating the multiple handling of individual packages since there is no transfer of the items from one handling unit to another.
