

## CO2 4 Tank Forkliftable

- Distribution
- Stocking
- Work-In-Process
- Display

Our CO2 cylinder carriers offer several heavy duty construction features that meet the DOT Code of Federal Regulations for safe and efficient transportation of compressed gases. From the rigid welded frames constructed of heavy gage square steel tubing to their ability to serve double duty as returnable pallets, Cannon Equipment's CO2 carriers are a safe and an approved way to transport compressed gases. In this horizontal carrier, cylinders are retained by a folding front gate that is constructed of solid sheet steel and dual latch pins for added security.

<b>Depth</b>	36"	<b>Casters</b>	NA
