

**BevGlide™ with Clear Plastic Fronts**

- Distribution
- Stocking
- Work-In-Process
- Display

The self-facing gravity feed display keeps products in view of your customers, stimulating impulse sales and increasing your profits. The adjustable shelves and dividers attractively accommodate multiple product sizes and maintain an organized appearance for shoppers ease. The newly design clear acrylic front panel allows complete product visibility. The Clear Plastic front design incorporates the use of a thick acrylic insert that retains various package sizes and allows clear visibility for product identification and information. This design has become an industry favorite. Zinc plating under powder coat finish provides added protection for longevity.
